

Amendments to the Claims:

The following listing of claims will replace all prior versions, and listings, of claims in the application:

1-16. (Canceled)

17. (New) A decorative molding, comprising:

a decorative sheet for in-mold decorating injection molding, the decorative sheet comprising a base sheet having a first surface and a second surface, a decorative layer formed on the first surface, and a resin layer formed on the second surface; and

an injection-molded resin molding to which the resin layer is bonded;

wherein:

the decorative layer comprises a binder resin, the binder resin comprising at least one of an acrylic resin and a polyvinyl chloride-acetate resin;

the resin layer comprises an acrylic-modified polyolefin resin formed by graft-copolymerizing at least one of an acrylic monomer and an acrylic prepolymer on principal chains of a polypropylene resin.

18. (New) The decorative molding of claim 17, wherein the resin layer is a second decorative layer and the acrylic-modified polyolefin resin is a binder in the second decorative layer.

19. (New) The decorative molding of claim 17, wherein the base sheet comprises an acrylic resin.

20. (New) The decorative molding of claim 17, wherein the injection-molded resin molding comprises a polyolefin resin.

21. (New) A decorative molding, comprising:

a decorative sheet for in-mold decorating injection molding, the decorative sheet comprising a base sheet, a decorative layer formed on the base sheet, a primer layer formed on the decorative layer, and a resin layer formed on the primer layer; and

an injection-molded resin molding to which the resin layer is bonded;

wherein:

the decorative layer comprises a binder resin, the binder resin comprising at least one of an acrylic resin and a polyvinyl chloride-acetate resin;

the resin layer comprises an acrylic-modified polyolefin resin formed by graft-copolymerizing at least one of an acrylic monomer and an acrylic prepolymer on principal chains of a polypropylene resin.

22. (New) The decorative molding of claim 21, wherein the primer layer comprises at least one of an acrylic resin and a polyvinyl chloride-acetate resin.

23. (New) The decorative molding of claim 21, wherein the base sheet comprises an acrylic resin.

24. (New) The decorative molding of claim 21, wherein the resin layer is a second decorative layer and the acrylic-modified polyolefin resin is a binder in the second decorative layer.

25. (New) The decorative molding of claim 21, wherein the injection-molded resin molding comprises a polyolefin resin.

26. (New) A decorative molding, comprising:

a decorative sheet for in-mold decorating injection molding, the decorative sheet comprising a base sheet, a decorative layer formed on the base sheet, and a resin layer formed on the decorative layer; and

an injection-molded resin molding to which the resin layer is bonded;

wherein:

the base sheet is a laminated sheet having at least two layers;

the decorative layer comprises a binder resin, the binder resin comprising at least one of an acrylic resin and a polyvinyl chloride-acetate resin; and

the resin layer comprises an acrylic-modified polyolefin resin formed by graft-copolymerizing at least one of an acrylic monomer and an acrylic prepolymer on principal chains of a polypropylene resin.

27. (New) The decorative molding of claim 26, wherein the injection-molded resin molding comprises a polyolefin resin.

28. (New) The decorative molding of claim 26, wherein the resin layer is a second decorative layer and the acrylic-modified polyolefin resin is a binder in the second decorative layer.

29. (New) The decorative molding of claim 26, wherein the base sheet comprises an acrylic resin.
